Home Educator Express

Hi THSC Friend,

Now that the weather is cooling down a bit, it's the time that my kids get the desire to go on [homeschool field trips](#) and observe the changing seasons! Even if the leaves that are falling aren't quite orange or vivid hues where you are - we are in central Texas, so this is rare - you can still get into the cozy, autumn spirit.

We always love to check out the [Read Aloud Revival seasonal booklists](#)! For October, the list is full of fall favorites, like [Fletcher and the Falling Leaves](#) by Julia Rawlingson and [The Biggest Pumpkin Ever](#) by Steven Kroll. You can probably find them out at your local library.

Also, we are planning to do some of the activities in [this colorful unit study](#) centered around pumpkins! Complete with math activities, learning science

with the life cycle of pumpkins, and even pumpkin Pointillism art - pumpkin spice scented playdough, anyone? - this is sure to have something for everyone to enjoy.

Happy Autumn,

Jessica Lovett
